

## Strategic Workforce Planning Development Programme

The way that organisations conduct their business is changing rapidly, as is the environment in which they operate.

There is a genuine risk that those who fail to plan will be unable to maintain a workforce profile that will deliver their strategic imperatives in the medium to long-term.

A well-conceived Strategic Workforce Plan is vital if an organisation is to reliably inform recruitment, development and retention strategies.

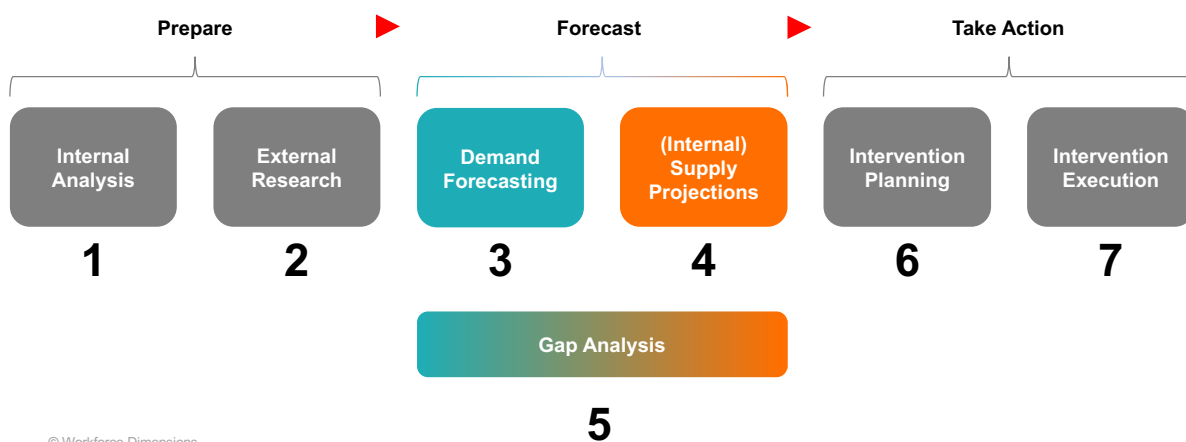

The successful execution of a Strategic Workforce Plan requires specialist skills.

### Our Programme

Delegate groups wishing to gain an awareness of Strategic Workforce Planning, may choose our short 'foundation' course (typically 2 x 60-minute sessions delivered via a web conference).

For those who intend to be involved in a Strategic Workforce Planning initiative, we offer an expanded programme at either 'intermediate' or 'expert' level. Duration(s) depend on specific requirements.

All options align with our methodology (below) and feature a step-by-step guide to process execution.

To understand more about our programme, and to discuss delivery options, please contact us. [info@workforcedimensions.co.uk](mailto:info@workforcedimensions.co.uk)
